1) Sri Raghavendra Swami Mutt
at Nanjangud has been granted a
ready money loan of Rs 6378/- plus
Rs 30/- p.a. Besides this, extensive
Sham lands are endowments. His Holiness
says that his mutt has been paying
heavy interest on the existing loans
which have to be discharged & that
the mutt buildings also require repairs.
It is in this connection the loan is given

Forwards a report on the
request of the Swamigalu of Sri
Raghavendraswami Matt for a loan
of Rs 30,000.

8) The income of the Matt is
said to amount to Rs 11,130 and its
expenditure is said to amount to
Rs 14,558. The arrears of pay due to
the Barr guard at the Matt is said
to amount to Rs 14,558. This is being
paid in annual instalments of Rs 1320. No
information is furnished by the Mysrai
Cour. as regards the extent of the
Matt's indebtedness with a view to
judge the necessity for the ~~large~~
~~amounting~~ loan of Rs 30,000 wanted
by the Matt.

9) The Mysrai Cour. proposes
that if the Swami agrees to the income

after the instalments and interest due are recovered, the loan of Rs 30,000 wanted by the Swami may be sanctioned. The Muzrai Commr. perhaps wants to recover the arrears of pay due to the Barr guard also before paying the balance to the Swami. As stated by the Muzrai Commr. there will be adequate security then for the loan to be advanced by Govt. and it will be possible to ensure repayment of the loan. It is however a point for consideration whether it is not necessary to ascertain 'if the Swami' is willing to agree to the proposals referred above and whether information as regards the necessity for the loan should not also be called for before the loan is sanctioned. Submitted for orders.

10) The Muzrai has applied for a loan of Rs 30,000 to get rid of its debts which are said to bear a heavy rate of interest. It has not been stated as to what the extent of indebtedness is. Presumably it is about Rs 30,000. The Muzrai Commr considers that having regard to the antiquity & status of

for the loan, all the Swamikal

might be repaid by withholding
Rs 3000/- each year from the

The Muz. Comr. considers that
the Matha can not be
the security for the loan. This
view is correct & has to be
accepted. The other alternative
is to take the properties of
the Matha as security. But
this the last alternative may
also be considered.

it. Further it is for Comr.

The loan of Rs 30000 may be given.
Interest may be charged at 5%. The
instalment per year may be fixed at
Rs 3000 per year including interest. The
whole amount will thus be paid in
about 13 years. The Swamikal proposes
that the instalment may be retained
from the ^{Tasdik} cash grant. The M.C. thinks
that this arrangement is not desirable
as it might affect the sevas. He proposes
therefore that the property of the mutt
may be taken under management.
This seems unnecessary. There seems to
be no harm in adjusting the instal-
ment from the Tasdik grant. Whether this is
adjusted from the dean of revenue or
from the income of the mutt property
when taken under management
the risk to the sevas is the same.
The course proposed by the Swamikal
may perhaps therefore be accepted.
In doing this, the M.C. may be asked

18) The proposal is to sanction
a loan of Rs 30,000 to the Sri

Raghavendraswami Mutt at Nanjangud, bearing interest
at 5%, to be repaid in annual instalments of Rs 5,000/-.
Mutts are private institutions. Their financial
transactions are not under Government control. There
is a general tendency for Mathadhipathis who have only
a life interest in the property of the Mutt, for vari-
ous reasons, to be extravagant in expenditure and
~~prone~~ to borrow money without reference to their capa-
city to repay the same. Government is not in a posi-
tion to control them and there is no general order
laying down that Government should go to their help
when they get indebted and are in financial difficulties.
Even if the Mutt is helped now, there is nothing to
prevent it from again getting indebted. In these days
all ~~sectors~~ would like to get debts from Government at

cheap rates of interest. In the absence of any general order or well understood policy, there is no reason why Government should lend money to individual debtors which may give rise to an inconvenient precedent.

In view of the very heavy capital commitments in the Electrical, Railway and other departments and of the need for the discharge of the $5\frac{1}{2}\%$ loan for Rs 210 lakhs in 1938, it is necessary to conserve our cash resources as far as possible, and avoid large cash outgoings from the treasuries. On these grounds, this application is open to financial objection.

24) In the present case, the loan is asked for in connection with the discharge of the loan raised by the Mutt at a high rate of interest (12%) and for expenditure to be incurred on account of repairs etc., to the Mutt building. The suggestion of the Mutt is that the instalment may be adjusted out of the Tasdik grant of Government, while the Muzrai Commissioner suggests that the inam villages and other properties of the Mutt should be taken under Government management and the loan instalment should be adjusted out of the income from these properties, as the Tasdik grant, intended for the maintenance of the Mutt, cannot be accepted as security. From the statement of receipts and expenditure of the Mutt, it is seen that the expenditure of the Mutt is in

Serial
No.

excess of the income by Rs 3,420. The Mutt states that by the grant of a loan by Government to be recovered in annual instalments of Rs 3,000, there will be savings in expenditure to the extent of Rs 420 on account of interest and to the extent of Rs 1,320 on account of the instalment payable by the Mutt towards pay of Barr guards, which is proposed to be adjusted out of the loan. The Mutt states that the balance of the excess, viz., Rs 1,680 will be met by the income from the villages outside the State and from Kanikes etc. How far the figures in this statement ~~can~~ can be taken as correct requires examination. The total amount still due on ^{account} of contribution for sepoys has to be definitely ascertained. It is also desirable to get a statement of the assets and liabilities of the Mutt. No action could be taken on the unverified statements in the application without full enquiry.

The present loan of Rs 28,500 is stated to have been raised for the purpose of a building near Nanjangud and for repairs etc. to the Mutt building at Nanjangud. Whether this statement is a fact, and whether the raising of the loan was justifiable and what extra income in the shape of rent or otherwise was anticipated and actually realised from it are not stated. Full details of the persons from whom the loans have been taken and

the conditions attaching to them are not given.

The general statement of the Mutt that it will be able to regulate its expenditure with reference to the income after the existing loans bearing interest at 12% are replaced by a loan from Government, requires examination and an assurance^{or} guarantee, that it will not borrow again, obtained. There is, further, the legal difficulty ~~(pointed out in para 11)~~ regarding the binding nature on the mutt properties ^{and} ~~and~~ on the successors of the present Swami of any mortgages or loans that he may ^{take} ~~enter into~~. (Vide para 11) ^{above} on this point ^{that he may effect} legal opinion is necessary

12) If a loan is necessarily to be sanctioned in this case, the following safeguards appear to be necessary:-

(1) All the statements in the application and in particular, the statement of receipts ^{and} ~~of~~ expenditure, the details of the existing loans, furnished by the Mutt should be got verified. A statement of assets and liabilities should also be got verified and a proper valuation of the properties should be arranged for.

(2) Government should satisfy themselves that the loans ^{were} ~~was~~ previously raised by the Mutt ~~was~~ justifiable and that the Mutt will properly manage its affairs in future, without resorting to further borrowings and that the expenditure will be regulated with reference to its income and that any loan given [^] will fully bind the

(3) Adequate security should be taken. It will

(4) Proper agreement should be taken from the
Mutt and the amount to be lent should be as small as
possible and within the capacity of the Mutt to

(5) The period of repayment should not be more
than 10 years and rate of interest not less than 6%.

There is no public purpose involved in this loan

Grant of a loan of Rs 30,000 to the Sri Mahaveendra
Swamy Mutt at Nanjangud.

* 17.

With reference to your Memo No. 1673/uz.200-20-2 dated 29-6-1937
regarding the Srimutha of the Swamigalu of the above Mutt, requesting
for the grant of a loan of Rs 30,000, I have the honor to state that
the Swami says that owing to the extension and improvement of the Mutt
buildings at Nanjangud and other demands on the Mutt, some debts have
been contracted at heavy rate of interest. He wants the above loan,
free of interest or at a low rate of interest, for paying up the debts
and thereby avoiding payment of heavy interest, and also, for complet-
ing the restoration work. He proposes to repay the loan at Rs 5,000 a
year by deduction from the annual cash grant of Rs 6,959, which is be-
ing disbursed to the Mutt at Nanjangud Treasury at Rs 14-8 a month.

2. In the present case, the security of cash grant is not accept-
able. It is neither good in principle nor wise to advance loan on the
security of cash grant which is given for the maintenance of the Mutt
and is liable to be withdrawn at any time for failure of the object
for which it has been granted. It is not an absolute grant which can
be assigned or accepted as security for the payment of the debt.

3. From the statement of income and expenditure furnished by the
Agent of the Mutt, herein enclosed, it is seen that the financial
condition of the Mutt is not satisfactory. The Mutt gets an annual
income of Rs 11,153 from the inam villages, cash rents and other sources.
The total annual expenditure, including the interest of Rs 5,420 and

annual instalment of Rs 1,320 due towards the arrears of Barr Guard is shown as Rs 14,558. The Agent states that the deficit amount is made good by income received from the villages in the other States and other kanike amounts received from the disciples of the Mutt. He hopes that the present position would improve after the grant of the loan, as the payment of heavy interest and payment towards Barr Guard pay can be avoided and all savings can be utilised towards the liquidation of this loan.

4. The Mutt has got the marginally noted inland villages, from which

1. Ambale	in	Kanjagud Taluk.	} an annual net income of Rs 3,509 is expected and the excise income from Ambale and Khaggalur villages is estimated at Rs 500 per year.
2. Khaggalur	"	Do.	
3. Longahalli	"	Do.	
4. Collahalli	"	Madhugiri	
5. Dyamanahalli	"	Jagalur	
6. Chendannahalli	"	Belur	

5. The Mutt is an important one and is of sufficiently high status. In view of the present financial commitments and other circumstances, the Mutt deserves accommodation, but as heavy amount is asked for, it is necessary to make sufficient safeguards for recovery of the instalments regularly.

6. If the Swamy agrees to the inland villages and other properties being taken under Government management and to receive the balance that remains after the instalment due to Government together with interest is adjusted out of the income, the Government, the creditor, will be in a position to recover the instalments.

7. It may be stated that this case cannot be treated on the analogy of the loan granted to the Sri Sringeri Mutt on the security of the annual Abkari income due from Government. The Abkari is a permanent source of income. Besides, this is a Mutt having extensive land endowments and other properties both, in and outside the State. Its income is in excess of its expenditure and the properties are also under Government management.

beg to report the above facts for orders of Government.

The Srirama and other enclosures are herewith enclosed.
